

# Don't Spend Forever

## Something With Numbers

Everything seems to work flawless (??)  
Cause I know they don't break them like they used to  
All we do is wait and work  
Spending all our money on dust  
There's a storm cloud a-brewing

Here's a few words of advice:  
Don't spend forever waiting to be  
Don't laugh and lie  
And say it's all right  
Cause you never ever get back your time

Time is like a river  
Speeding up and slowing down  
Until one day its dry, dry, dry  
You keep on waiting for that wheel  
But it never seems to come around  
They don't make them like they used to

Here's a few words of advice:  
Don't spend forever waiting to be  
Don't laugh and lie  
And say it's all right  
Don't spend forever waiting to see  
Don't laugh and lie  
And say it's all right

Cause you never ever get back your time to do something better  
It's time to do something right  
It's time to do what feels right for you  
Yeah it's time to get it right  
It's time to do something clever  
It's time to do what excites  
It's time to do what it's time to do  
Yeah it's time to get it right

Here's a few words of advice:  
Don't spend forever waiting for me  
Don't laugh and lie  
And say it's all right  
Don't spend forever waiting for me  
Don't laugh and lie  
And say it's all right

Cause you never ever  
Cause you never ever  
Cause you never ever get back your time
