Stay With Me Bright Eyes

Something With Numbers

If you were the melody, then I would be the song;
Together we would make everybody sing along
Whistling and a singing through the hall and through the streets
Everybody's dancing and there moving to the beat

Baby, don't go now
Don't go now
Don't go now
'Cause i need you right here
I'll give away anything and everything for this

If I was a shadow, then you would be the sun
Together we would always because you the only one

If I was a poem then you would be the pain
Together we would need each other like a rose needs rain
Don't go now
Don't go now
Don't go now
'Cause i need you right here
I'll give away anything and everything for this

Stay with me bright eyes, stay with me darling
And never go
I'll never get over you

Stay with me bright eyes, stay with me darling
And never go
I'll never get over you

If I was the magic, then you would be the trick;
Together we will challenge what everybody thinks

If I was the villain then I would still you heart
I would take it everywhere with me in a jar

Baby
Don't go now
Don't go now
Don't go now
'Cause i need you right here
I'll give away anything and everything for this

Stay with me bright eyes, stay with me darling
And never go
I'll never get over you

Stay with me bright eyes, stay with me darling
And never go
I'll never get over you

Feels like I'm drowning in the rain
If I shout aloud
You won't even hear me now

Feels like I'm drowning in the rain
If I shout aloud

You won't even hear me now

Feels like I'm drowning in the rain
If I shout aloud
You won't even hear me now

Feels like I'm drowning in the rain
And If I shout aloud
You won't even hear me now

Won't even hear me!

Stay with me bright eyes, stay with me darling;
And never go
I'll never get over you

Stay with me bright eyes, stay with me darling;
And never go
I'll never get over you
