

This Will Be The Last Time

Something With Numbers

Yeah honey, we need a solution
Or everything will end right now
We had it all, we were one, we were perfect together
I'm tired of making the decisions
Girl, I'm ready to break down
We had it all, we were one, we were certain for something

We suffer without one another
All I need is some respect and a little love
We had it all, we were one, we were second to no one
I'm ready for your explanation
This life you just can't walk out of
We had it all, we were one, we were one

This time alright, I'll forgive you tonight
But this'll be, this'll be the last time
This time alright, I'll forgive you tonight
But this'll be, this'll be the last time

Yeah honey, we need an answer
Cause it's tearing me apart
We had it all, we were one, we were ready for something
Speak up and tell me the truth, girl
Is it supposed to be this hard?
We had it all, we were one, we were one

This time alright, I'll forgive you tonight
But this'll be, this'll be the last time
This time alright, I'll forgive you tonight
But this'll be, this'll be the last time

This time alright, I'll forgive you tonight
But this'll be, this'll be the last time
This time alright, I'll forgive you tonight
But this'll be, this'll be the last time
