

I wish we'd go back to the heart of it all  
We were born and raised to love with our soul  
City wide  
We were running wild  
So young and so bold  
We'd never grow old, woah, no  
I wish for the sunny days  
And the moonlight ending on your face  
You and I  
And a little grace  
Don't give up it'll be a waste  
See a star fallin' from the sky  
Shinin' bright like a lullaby  
Oh, I  
Ohhhhh

I wish I may, I wish I might  
I told you things I wish I lied  
Oh, if I may, oh, if I might  
I'd take back things I did that night

I wish I may, I wish I might  
I told you things I wish I lied  
Oh, if I may, oh, if I might  
I'd take back things I did that night

Wish we'd go back to the normal days  
When we could laugh through the pouring rain  
Need to fall back into what we made  
Wearing, wearing all black since you walked away  
Missin' those eyes when we'd conversate  
Holding my breathe when you're not with me  
Losin' my head over what has changed  
Been, been fallin' up since you walked away

Flip it on back from the other side  
Don't fill it up with doubt 'cause your lover lied  
I'm singing this out till' you come back  
'Notherl love round  
'Cause you know you're lover tried  
Flip it on back from the other side  
Don't fill it up with doubt 'cause your lover lied  
I'm singing this out till' you come back  
'Notherl love round  
'Cause you know you're lover tried

I wish I may, I wish I might  
I told you things I wish I lied  
Oh, if I may, oh, if I might  
I'd take back things I did that night

I wish I may, I wish I might  
I told you things I wish I lied  
Oh, if I may, oh, if I might  
I'd take back things I did that night

I wish I may, I wish I might

I told you things I wish I lied  
Oh, if I may, oh, if I might  
I'd take back things I did that night
