

She's got her hands up
Out on the floor
Raising the rooftop
Loosing control
He's got the rhythm
To sparkify
Feeling the heartbeat
Chasing desire
Grab somebody
Make it work
Do the shuffle
Shake it, twerk
Psychedelic music makes you crazy
Makes you go bizerk
Tracing lights with fingertips
Dancing till our bodies quit
Move your feet to heavy beats
Now everybody shout and scream
And we live for that rush
And we rush for that love
Everybody's getting on
Stuck in the moment
Right in the spot
Save by the music
Pour up the shots
Celebrate the good times
That we forgot
Grab somebody
Make it work
Do the shuffle
Shake it, twerk
Psychedelic music makes you crazy
Makes you go bizerk
Tracing lights with fingertips
Dancing till our bodies quit
Move your feet to heavy beats
Now everybody shout and scream
And we live for that rush
And we rush for that love
