

Wild Heart

SoMo

Oh yeah
Oh whoa, whoa, whoa
Come on

Woke up last night
Haunting me all the time
I wrote you a valentine
Speaking of all the signs
I hold the rhyme to open up this kind of life you'd like
You love, don't fight it, you feel it
You'll like it, don't rush it, I'll guide it
Come show me, just try me
You, you huff and ya
You blow me down
You say these words
I'm not around (I'm not around)
I need someone to love me for life
Love me all my life

Say you want my (Want my, want my)
Love (Love, love)
Say you want my (Want my, want my)
Wild heart
Loving you is right
If only for the night

Right, left, right
Free with the lights on
Free with the lights off
Hold ya baby like this
See the way you like this
Love ya body right
Free with the lights on
Free with the lights off
Love ya body right
Hold ya through the night long
Be there when the night's gone
Love ya baby right

Pick up the phone
You know that I love those noises
You know what I'm on
Baby, girl I can tell
And I know that you're real, whoa

Say you want my (Want my, want my)
Love (Love, love)
Say you want my (Want my, want my)
Wild heart
Loving you is right
If only for the night

Left, right, left, right
Free with the lights on
Free with the lights off
Hold ya baby like this
See the way you like this

Love ya body right
Free with the lights on
Free with the lights off
Love ya body right
Hold ya through the night long
Be there when the night's gone
Love ya baby right
