

# Slowly

Son Lux

Please be careful what you say  
I may die this way  
Be careful how your mouth pulled apart  
I can see your lips, I don't wanna feel your heart

Slowly lie to me  
Like you do when you tell the truth  
Slowly lie to me  
Like I need you to do so I can hear you say  
Something that sounds right

Slowly lie to me  
Like you do when you tell the truth

Please be careful what you say  
'Cause if I split in two you will be to blame  
'Cause I know nothing better and nothing worse  
And how you twist your letters into words

Slowly lie to me  
Like you do when you tell the truth  
Slowly lie to me  
Like I need you to do so I can hear you say  
Something that sounds right

Slowly lie to me  
Like I need you to do when you tell the truth  
And tell me what to believe, and tell me what to deny  
And whisper into my ear till everything dark turns bright

Slowly lie to me  
Like you do when you tell the truth  
Slowly lie to me  
Like I need you to do so I can hear you say  
Something that sounds right
