

As If the World Wasn't Ending

Sonata Arctica

Started a dangerous game that's not won by
The person who made the first move
Chose to be targeted by all those eyes
And now, some of you think I'm a fool...

I guess I am guilty, I'm only a man
But this world is imperfect too,
And that just has to do...

I chose not to hear what the smart people said,
And instead played my cards like a fool
Every day took a chance to get caught in the fire,
These flames do not burn like I do...

I wait in line to be hung by the neck,
until everyone sees I'm right
I need to have my chains

Removed and hide here
While the spotlight's seeking me...
Forget the world for now, my Love,
And live these days with me
As if the world wasn't ending...

...Cheers...

Masks removed we hide here
While the spotlight's seeking me...
Forget the world for now, my Love,
And live these days with me
As if the world wasn't ending...

Take me where I cannot hear
The people calling me...
Pour Whisky, Brandy, Vodka...
Come and live this night with me...
As if the world wasn't ending...
