

Life

Sonata Arctica

Your life isn't illusion
Time is a eager delusion
A cage is a creation
Of someone's imagination

If life makes you glow
Then glow like a star
Build a night
Ignore the day
On the sky leaving the clouds
To defy gravity

Sign an aberration
Your low down to damnation
When the rest is an illustration
Predicts the tribulation

Could the keys give you hope
To live in a dream
Let the music grow
When your eyes close from the vast plotting of stars

Sing one life
Wait for the punch line
Notes are blind
But they know when you sing and smile

Life is better alive
It is a dumb thing to say
But the fact won't wane away
Sing with someone today
When your team makes a game winning goal
Get ready to sing

Lalala lalalala lalalala
With a friend who is right beside you
Lalala lalalala lalalala
With a friends beside you

Time...
Every light on the blue sky
The night will beautify
Time...
Cast coins in a waterfall
Two coins, one for each eye
Time...
The icy tingle of empty vapor on your hand
Time...
The tiny cracks in the ground
For a canyon that needs command

Just one life
Sing with the feeling
Turn back time
Make all your stars align
The only thing that we need
Is the vanity of happiness

With friends align
They sing in the key of

Life
Life is better alive
It is a dumb thing to say
But the fact won't wane away
Smile at someone today
If the wall smiles back
You're alive and ready to sing

Life is better alive
It is a dumb thing to say
But the fact won't wane away
Sing with someone today
When your team makes a game winning goal
Get ready to sing

Lalala lalalala lalalala
With a friend who is right beside you
Lalala lalalala lalalala
With a friend beside you
Yeah!
It is a dumb thing to say
But the fact won't wane away
Life is better alive
When your team makes a game winning goal
Get ready to sing
Lalala lalalala lalalala
It is a dumb thing to say
But the life is better alive
Lalala lalalala lalalala
Life is better alive
Lalala lalalala lalalala
Life is better alive
