

Blue Jay

Songs: Ohia

it seems that the older inhabitants never got out of you
the phantom broods were wronged in body
and in a state they will make their soon escape
by building a new inheirittance
it's likely more not to be
than sin and death and vipers to fill our beds
and as for liberty she will work or she will suffer
i am dense with the light of women
and i insist i'm not confused
i will not be going
