

You are what brings me to my knees and from my sleep you wake me
You are the ground beneath my feet and to my dreams you take me
You are the one who shapes me
You are the one who shapes me

You are what brings me to my knees and from my sleep you wake me
You are the ground beneath my feet and to my dreams you take me
You are the one who shapes me
Yeah you are one who shapes me

And I can't live this life without you by my side can't burn out
t bright if you don't set me on fire on fire!

My soul's on fire with this love make the flame burn higher
Love glows to guide us through the night to make the darkness brighter
You set be on fire

And I can't live this life without you by my side can't live this
is live
On fire
On fire
