

# Leaving October

Sons Of The Desert

(Drew Womack/Tom Douglas)

The autumn leaves they rush outside my window  
Like they've got something so important they must do  
Sara will be home now any minute  
She likes her third grade teacher and looks  
So much like you

I struck a match to light the furnace in the hallway  
I could smell the summer dust burning in the vent  
It's just another thing that brings  
your memory back to me  
I think that Sara knows I'm troubled  
By that scent, she reads my mind

I'm just fine 'til the end of September  
Then I remember losing you October '89  
If I live in the past, there's no future  
I'm looking forward to leaving October behind

There's a girl I really like down at the office  
Me and Sara asked her out for New Year's Eve  
It made me cry when I told her all about us  
But Sara says there's nothing wrong with me  
It just takes time

I'm just fine 'til the end of September  
Then I remember losing you October '89  
If I live in the past, there's no future  
I'm looking forward to leaving October behind

All things work for good  
Has become my favorite verse  
Sara told me that they would  
But when the nights get cold  
And the leaves turn rust and gold  
That's when your memory hurts

I'm just fine 'til the end of September  
Then I remember losing you October '89  
If I live in the past, there's no future  
I'm looking forward to leaving October behind
