Take it all in Let it all out Can you help me? Can you tell me why? What made my heart sink Now makes her cry Drown my sorrows with another wine But it won □t work this time However hard I try I□ve gotta pick myself up off the floor Kick these feelings out of the door I take it all in I let it all out My world□s in a spin Some things you gotta shout about Cause when you□re down with love There s nothing you can do What you want Try as you might So hard to fight Somethings you can□t live without And when you□re down with love There ain □t no cure at all Jaded heart I□ve lost my appetite And I can □t see An end in sight Oh won It you bring back blue skys Baby hold me tight If you□re not here with me You know I dread the night I□ve gotta pick myself up off the floor Kick these feelings out of the door I take it all in I let it all out My world□s in a spin Some things you gotta shout about Cause when you Tre down with love ThereDs nothing you can do What you want Try as you might So hard to fight Somethings you can□t live without And when you□re down with love There ain □t no cure at all I'll never love again If this is how it ends And I don't wanna be down, down, down, down, down Down with love Down with love Down with love I take it all in I let it all out My world□s in a spin Some things you gotta shout about Cause when you re down with love ThereDs nothing you can do What you want

Try as you might
So hard to fight
Somethings you canOt live without
And when youOre down with love
There ainOt no down
When youOre down with love
There ainOt no cure at all
