

## Approximately Gone

Sophie Hunger

It's way over my head, it's over  
It's way over my head, it's done  
Every time you're out the door  
You wave goodbye  
You're back for more  
You'll never get out  
You'll never get out

Every time I loose my shoes  
I cut my feet I think of you  
You'll never get out  
In between my fingers  
You're the hole inside my head
