

# Liquid Air

Sophie Hunger

I'm so good at giving  
You don't need to take  
This ain't getting better  
We're never gonna make it  
To the other side of the lake  
Fall and fall and fall in love with actors  
You like to feed the rats  
I can be so many things  
But I can't be  
That, that, that  
Your science is fiction  
Your shadow is short  
It's not enough  
It's not enough to get hurt  
You're real when you're drinking  
Your love is a word  
It's not enough  
It's not enough to get hurt  
I know I've been alone too long  
I'll take a hit of anything  
Your stretch cocaine  
Your acid wine, your lipstick  
Talk to me in liquid air  
The more you cure, the less you care

But nothing you can say  
Will make me think it, think it  
Science is fiction  
Your shadow is short  
It's not enough  
It's not enough to get hurt  
You're real when you're drinking  
Your love is a word  
It's not enough  
It's not enough to get hurt  
I know I've been alone too long  
I'll take a hit of anything  
Your stretch cocaine  
Your acid wine, your lipstick  
Talk to me in liquid air  
I miss your lock, I really care  
But nothing you can say  
Will make me think it  
Live your life in taverns  
On English liquid air  
I can live in any place  
But I can't live there
