

Round And Round

Sophie Hunger

In the backyard you said: "Let's have a family"
In the front yard you note: "Oh, don't you wait for me"
In the papers you saw: "I'm free as free can be"
In your footprint, you left no legacy

Round and round and round you go
Who you are, nobody knows
Round and round and round you go
Who you are, nobody knows

Funny air, blow over, blow over, blow over, blow over
So unaware, fall over, fall over, fall over, fall over

In the backyard I sought there a family
In the front yard, I wrote on theories
In the papers my note: "I will, I will for eternity"
Now my footprints: "You are my legacy"

Round and round and round you go
Who you are, nobody knows

You were a shot in the head, when I thought I was home
And I keep throwing you up, so I won't feel alone
And I still hang you around, claiming amend
till I wake you and make you and break you again
