

She Makes President

Sophie Hunger

Her mother's mother and her mom
Never had much fun
Took the blow like down in silence
See their shame inside their pa

She's got plutonium in her head
She needs no blessing no respect
You combat her favorite venom
But you can't give her what's she you'll get

Huuuuuuuu-u-u-uu
She's a loveless land
Huuuuuuuu-u-u-u-u-uu
She's a loveless land

She will not make your babies
She will make president
Her mother's mother and her sisters
What they said was of no interest

But all her words they hurt like blisters
You better care for what you ask

She was born to be impatient
Her mother's mother all died waiting
Hold her back try barricading
And you will break like sugar glass

You will break like sugar glass
Hiiiiiii-i-i-i
She's a loveless land

Haaaaaaa-a-a-a-a-a
She's a loveless land

She will not be your accolade
She will not be your medicine
She cannot share her DNA

She will make president
