

## There Is Still Pain Left

Sophie Hunger

My love, my love, you say there is still pain left  
Still glass that is not broken  
There are still blows you kept from taking  
Still train you have not missed

There are still wars you've not applied for  
Still accusations you've not made  
Some parts still alive

Kiss your nightmares  
Everywhere, everywhere  
You feel your nightmares  
Everywhere, everywhere  
You touch your nightmares  
Everywhere, everywhere  
Why, why can't you see  
You should be kissing me

My man my man, you say there is still pain left  
Still more wicked panicked eyes

There is still some molecules intact  
And there is still a darker black

You kiss your nightmares  
Everywhere, everywhere  
You feel your nightmares  
Everywhere, everywhere  
You touch your nightmares  
Everywhere, everywhere  
But why, why can't you see

You could bet it all on me

You kiss your nightmares  
Everywhere, everywhere  
You feel your nightmares  
Everywhere, everywhere  
You touch your nightmares  
Everywhere, everywhere  
Why, why can't you see  
You should be kissing me
