

Down on Up to Me

Soul Asylum

Dear stranger to authority
Welcome to the minority
It's not someplace you have to go
It's not something you have to know

Don't do this, don't touch that, hey
Draw the line, burn this down, I'll speak my mind
Maybe I'll wait for another time

Sometimes good comes to those who wait
Sometimes it makes you hesitate
Some folks fight for humanity
Some folks fight for their sanity

Don't do this, don't do that, don't try this, don't touch that,
hey
Do it for the last time
By the weight of the world coming down

Down on, down on up to me
Down on up to me, wait for another time

When you look down on me I get so uppity, hey
Starting my own army, just me and my friends
Said you better get ready

(Ha, ha, ha)

Coming down, down on, down on up to me, down on up to me
Coming down, down on, down on up to me
Down on up to—

Though it might just come down to trust
It sometimes just comes down to lust
That's just one person's point of view
