

Lonely For You

Soul Asylum

Fmaj7 **C**
Barefoot and pregnant she tries not to bend
Fmaj7 **C**
The ear of the doctor's not much of a friend
B **Ami** **G** **C**
The doctor's on location missing his kids
G
And wondering where she went to live

Fmaj7 **C**
Spend time alone and look after your life
Fmaj7 **C**
Remember your loved ones, your boyfriends, your wives
B **Ami** **G** **C**
And if you are lonely and she's lonely too
G
Then she will stay lonely for you

C **G**
Yes, she will stay lonely for you

Ami **Fmaj7**
Come what may, come someday
C **G** **CG**
And she will stay lonely for you

Fmaj7 **C**
Patiently waiting for taxis to come
Fmaj7 **C**
To take you away from all you have become
B **Ami** **G** **C**
The driver tells stories like he's your best friend
G
And you hope the ride never ends

Fmaj7 **C**
To all of the ones who have got no one else
Fmaj7 **C**
Who keep their own time and look after themselves
B **Ami** **G** **C**
Someday you'll meet someone lonely as you
G
And he will stay lonely for you

C **G**
Yes, he will stay lonely for you

Ami **Fmaj7**
Come what may, come someday
G **C** **G**
And I I will stay lonely for you

C **G**
I will stay lonely for you
