

## Someday

## Soul Embraced

You push me I shove back  
I'm the weak one  
Always getting harassed  
Violence my last solution  
Taking out the problem  
The only way out  
Does the way I look  
Make me that different from you?  
I'm sick of being abused  
What have I ever done to you?  
II can only take so much  
Today is the day I wash my hands of you  
Will we ever learn?
