

I Care (soul li Soul)

Soul II Soul

I would not want to live in a world
say that i would not want to live in a world without you
say that i love a higher love, so high a love it lets my spirit
see

i would not want to live in a world,
say that i would not want to live in a world without you
soul to soul i love you
say that i would not want to live in a world without you

soul to soul i love you
soul to soul i care
i would not want to live in a world if you're not there

say that i love a richer love. so rich a love it cannot be continued
say that i love a stronger love.
so strong nothing else remains

i would not want to live in a world, say that i would not want
to live in a world without you
soul to soul i love you. say that i would not want to live in
a world without you

soul to soul i love you
soul to soul i care
i would not want to live in a world if you're not there
