

Lair of God

Soulitude

Alain:

Hate inside is rising
I will never forget the day
You refused to give me a hand
And all I loved did fade away

Loren:

All your mercy and all your tears
Empty prayers to the wind
I will not rest I won't give in
Until I hear you scream

Jevo:

Against wind and storm, through hell and high water
He sailed the skies and crossed the gate of heaven
Until the lair of God himself

Alain:

There's no curse to stop my rage
Your sacred spell's a harmless trick
Now my soul's free from your chains
I will not turn the other cheek

Loren:

And the angels in my way
They will fall to burn in hell
I'll show no mercy, you're to blame
Revenge's a dish best served in flames

Loren:

Now the time has come
I am in for the kill
In the lair of God
Justice shall be done
Pay with blood for your sins
In the lair of God
