

## Turn Me Off

Soulitude

I can live one million years or even more  
I can be forever young, never get old  
Stronger than a hundred men, and a higher IQ  
Even though I try hard, I'll never be like you

Give me life  
Give me birth  
Give me love  
Give me a soul

No emotions can process this microchip  
I ain't got a heart inside but only batteries  
Am I dead?, Am I alive? Or just a fantasy  
If I'm only a machine, please tell me what I feel

All my system seems to break down again  
Terabytes of tears flood my core  
I was not programmed to destroy myself  
Disconnect me and don't turn me on
