

# All I've Got

Soulsister

Ever since I was around  
I've been hanging around  
Like a curious boy  
In a cellar full of noise

When my baby found a way  
Ooh to stay out late  
Well we'd cruise until dawn  
With just the radio on

Now all I've got is the music  
To remind me of the times we had  
All I've got is the music  
It goes on and on and on and on

Well round about two  
We'd be shakin' things loose  
With the jukebox on  
And a motown song

Now all I've got is the music  
To remind me of the times we had  
All I've got is the music  
It goes on and on and on and on

The heat's gonna rise  
Till it's hot as it gets  
We're just gettin' started  
Baby don't go yet

The party ain't over  
Till we're soakin' wet  
To come on  
It goes on and on

All I've got is the music  
To remind me of the times we had  
All I've got is the music  
It goes on and on and on and on

All I've got is the music  
To remind me of the times we had  
All I've got is the music  
It goes on and on and on
