

# Back In A Minute

Soulsister

Out of the dark  
Into the shadow  
Out of the tunnel  
Into the rain

I ran from the light  
You were shining  
I knew how to blow a chance  
Time and again

And I'm back in a minute  
If you take your sweet love  
Out of here  
Right back in a minute  
To the hole you saved me from  
Where I would slowly dissapear

Fell from the edge  
Straight to the bottom  
Fighting a hunger  
I couldn't tame

Too proud to cry  
For a saviour  
Tried every crazy thing  
to keep me sane

And I'm back in a minute  
If you take your sweet love  
Out of here  
Right back in a minute  
To the hole you saved me from  
Where I would slowly dissapear

How were you able  
To reach down so far  
With the grace of an angel  
You took me up to the stars

I'm back in a minute  
If you take your sweet love  
Out of here  
Right back in a minute  
To the days of sorrow  
To the nights in tears

I'm back in a minute  
If you take your sweet love  
Out of here  
Right back in a minute  
To the hole you saved me from  
Where I would slowly dissapear
