

Dance for Me

Soulsister

It doesn't have to be everlasting
I don't need to see forever in your eyes
Just leave me something to remember
Something I can cherish till the day I die

Dance for me
Dance for me
Light the flame that's gonna
Set the world on fire
Dance for me
Dance for me
Precious goddess of desire

We don't share a past, I see no future
Just a body swirling in a state of grace
But I can hear it talking to me
So take me up, take me to a higher place

Dance for me
Dance for me
Light the flame that's gonna
Set the world on fire
Dance for me
Dance for me
Precious goddess of desire
Try to set the world the world on fire

Make like you'll remember
What I won't forget
Two perfect strangers
Who touched but never met

I can't see the crowd, hear the music
Everything around you fades into a haze
I think I see you smile and I feel chosen
But you're a temple I would only desecrate

Dance for me
Dance for me
Light the flame that's gonna
Set the world on fire
Dance for me
Dance for me
Precious goddess of desire
Try to set the world the world on fire
