

# Tell Me What It Takes

Soulsister

It's been a long time  
since the first time  
I tried to let you know  
Life is too short  
Better cheer up  
Baby or let me go

Every night  
I'm on pins and needles  
wondering what to say  
I'm working too hard  
just to keep our love  
from fading away

Tell me what it takes  
Tell me what it takes  
to get a happy look  
and a smile on your face

Tell me what it takes  
Tell me what it takes  
to make the sadness end  
and start you living again

Ooh ooh ohh  
Tell me what it takes  
Ooh ooh ohh  
Tell me what it takes

There's a blue moon  
or a bright sun  
shining in every sky  
Better think twice  
before this life baby  
just passes you by

Everyone knows there's no  
sure way of telling  
which way to go  
Open your heart  
come on let's start  
making a new love grow

Tell me what it takes  
Tell me what it takes  
to get a happy look  
and a smile on your face

Tell me what it takes  
Tell me what it takes  
to make the sadness end  
and start you living again

Ooh ooh ohh  
Tell me what it takes  
Ooh ooh ohh  
Tell me what it takes

Love's not an angel  
and life without danger  
just don't exist

When love's crucified  
there's no surviving  
there's nothing left
