

# Try Not To Cry

Soulsister

Try not to cry.  
Try not to cry.

'Baby goodbye' so hard to say  
but I've got to tell you anyway  
thinking of me, thinking of you  
I see a dream that can't come true  
I'm not the one  
I'm in the way of what you need, believe me

Try not to cry baby  
you carry a piece of my heart  
wherever you go  
Try not to cry baby  
you've got the key to my heart  
I want you to know  
Never walking over you  
never walking over you  
I know I'm gonna miss you forever  
Try not to cry baby  
when weak is goodbye

Don't wanna see, you're wasting your life  
waiting for some day to arrive  
Beautiful child, while you were young  
you should be someone's only one  
Please understand,  
I love you too much to keep you  
hanging on so

Try not to cry baby  
you carry a piece of my heart  
wherever you go  
Try not to cry baby  
you've still got the key to my heart  
I want you to know  
Never walking over you  
never walking over you  
I know I'm gonna miss you forever  
Try not to cry baby  
when weak is goodbye

All the nights we'll have 'till tight  
all the nights that felt so right  
we fall in love like dominoes & dines together  
Every sun was just for us  
we just couldn't get enough  
I'm always gonna love you  
Try not to cry baby  
I want to get over you  
I want to get over you  
so don't...

Try not to cry baby  
you carry a piece of my heart  
wherever you go  
Try not to cry baby

you've still got the key to my heart  
I want you to know  
Never won't get over you  
never won't get over you  
I know I'm gonna miss you forever  
Try not to cry baby  
when weak is goodbye
