

We've Got Forever

Soulsister

A salty wind was rising
Running down the heavy clouds
To promising horizons
Of blue

Our souls were innertwining
Underneath a lazy sun
That seemed was only shining
For two
Just me and you
Just me and you

You raced me up a sand dune
We collapsed into a dream
Fall was coming too soon
My love
That's when I told you
That's when I told you

'Cause if you can feel the spark inside
And you do want to let it be your guide
If you hold on to it day and night

If you don't forget to call on me
When the mountain ahead is way too steep
If you don't forget we hold the key
We've got forever
We've got forever

I can still remember
Every whisper, every touch
The summer of surrender
We shared

You said it doesn't matter
If our paths stray apart
They'll bring us back together
Somewhere
Don't think it's over
It needn't be over

'Cause if you still feel the spark inside
And you do want to let it be your guide
If you hold on to it day and night
We've got forever
We've got forever

Don't think it's too late
It's not too late

If you don't forget to call on me
When the mountain ahead is way too steep
If you don't forget we hold the key
We've got forever
We've got forever
We've got forever
We've got forever
