

Why Would I

Soulsister

There are times when we're apart
When there's a hunger in my heart
Somebody wants to try to fill
But I would rather be alone
Till I can bring that hunger home
And have it satisfied for real
Oh, ask yourself a simple question

Why would I settle for
Any less than your love
When without it I'd be dying
Why would I settle for
Any less than your love
I don't even want to try

Sometimes I feel a thousand eyes
Trying to sell me pretty lies
I would once have fallen for
It's true that you would never know
If that was where I want to go
But I would only miss you more
Oh, you can put away you worry

Why would I settle for
Any less than your love
Each and all of my tomorrows
Why would I settle for
Any less than your love
When with you I've got it all

You can rest assured
I'm forever yours
Body, heart and soul
For the best of my life

There are times when we're apart
When there's a hunger in my heart
Somebody wants to try to fill
Oh, ask yourself a simple question

Why would I settle for
Any less than your love
When without it I'd be dying
Why would I settle for
Any less than your love
I don't even want to try
