

The Labyrinth Of Truths

Soulspell

[Timo - Mário Pastore]

Time can fill the void that keeps me away
From healing my mind of going insane

[Centaur - Raphael Dantas]

Don't look for something you don't want to face
You would call an answer what we call a chance

[Choir]

Into the labyrinth of truths

[Haamiah - Maurício Del Bianco]

Into the labyrinth of truths

[Olaff - Germán Pascual]

No good will
Nor good faith

[Samael - Nando Fernandes]

No wisdom can break the spell

[Olaff - Germán Pascual]

No wisdom can break the spell

[Timo - Mário Pastore]

Heroes may pass but Lord I don't care
They live here inside our heads
Feelings may change, there's no one to blame
But we'll be forever the same

[Judith - Daisa Munhoz]

First time I saw him I could not avoid
Worrying about the outcome of Tobit's final choice

[Tobit - Leandro Caçoiolo]

There's no guilt in a war, like no victory with no test

[Tobit - Leandro Caçoiolo] + [Judith - Daisa Munhoz]

Together we'll get through this never-ending quest

[Timo - Mário Pastore]

Answers from a new world, my spirit won't last

[Hollow - Carlos Zema]

Come, you must come, you are now my guest!

[Timo - Mário Pastore]

Heroes may pass...

[Padyal - Jefferson Albert]

Oaahhh..

[Amaranth - Gui Antonioli]

You must be tough
The beast will bluff

[Samael - Nando Fernandes]

You three must learn
Ohh...Your mouths I will shut

[Hollow - Carlos Zema]
I smell you, You are weak
You are an easy prey to beat

[Amaranth - Gui Antonioli]
Why do you care?
Inside Hollow's lair

[Samael - Nando Fernandes]
Hollow!

[Hollow - Carlos Zema]
I've got souls to feed
Your end is about to come
So prepare to die
That's what you'll learn

[The Ripper - Alex Voorhees]
There are labyrinth's cells
You won't live to cell
Dungeons of hell
Where lost souls dwell
They will hunt you until the end of time
You're dead, my friend
Dark lord of fear
You must soon return
Forgive you humble servant's curse

[Timo - Mário Pastore]
Dark creatures' souls from a lost sea
Paintings unknown, but already seen
If that is what you want, that's what I'll dare
I will face your nightmare

[Hollow - Carlos Zema]
Your nightmare!

[Haamiah - Maurício Del Bianco]
A gray disloyal paradise
What a sweet way to die!

[Arlim - Tito Falaschi]
You were lost, you were bound
Now you're free, now you're found

[Timo - Mário Pastore]
Heroes may pass but Lord I don't care
They live here inside our heads
Feelings may change, there's no one to blame
But we shall be always the same
Heroes may pass...
You can never deny who you are
You can never deny who you were
You can never deny who we'll be
