

Black Hole Sun Chords

Soundgarden

G **B**
1. In my eyes, indisposed
F **Em**
in disguise as no one knows
F **Em**
hides the face, lies the snake
A **G** **B**
the sun in my disgrace

Boiling heat, summer stench

beneath the black the sky looks dead

call my name through the cream

and I'll hear you, scream again

F# **F**
R: Black hole sun, won't you come
B **Ab** **F#**
and wash away the rain
F# **F**
Black hole sun, won't you come
B
won't you come
Ab
won't you come
