Southpaw

I got lost in your body  
I got lost surfing on your skin  
Everytime when you find me  
I get scared you'll never let me in

Something in my mind  
Keeps me paralyzed  
Something in my mind  
Keeps me paralyzed  
Something in my brain  
Makes me act insane  
Somethning in my vains  
Again

Nothing means to me  
More than you and me  
Nothing seems to last in the end
