

For the last time

Southpaw

Take of your clothes
Do your favourite pose
Then get dressed
And get high
Cause tonight
You're going outside
To the streets
Where the right people meet
They get stoned
They get wild
But most of all remember

This life
This life could be last life
This life is a first fight
But it could be last life
The first kiss
The first night
Could br last one
So breathe in and breathe out
For last time
So what are we waiting for?

You look so sad
Lying naked in bed
And you stare at the guy
On the top of you now
And he looks so bad
After all the stuff he's had
After he stinks
And he sweats
And I think
That you forget

That this life
This life could be last life
This life is a first fight
But it could be last live
The first kiss
The first night
Could be last one
So breathe in
And breathe out
For the last time
So what are you waiting for?
