

From the first joint... to the last orgasm

Southpaw

From the first joint to the last orgasm
That's the only time I really feel alive
But now your mouth is full of sarcasm
I want to kick you out
Because I'm this kind of a guy
Yeah, I'm the swine
That's what I am
And all this time
I've been telling to myself - That's OK!
I'm just like every other man

From September to February
That's the only time I feel a little shame
Because in summer just Champagne and strawberries
Cassanova that's my real name
Yeah, I'm a pig
I can't feel love
And all I do is trick and I'll make you sick
Just can't get enough of lust
And my life is too fast

And this song is just too sweet
Because that's what girls love
And that's what boys need
And I just hope it's gonna sell pretty well
Before I'm in hell
