

Intellygent Songs

Southpaw

We've been through all the kinds of hardcore
But we calm down
Oh, yeah we calm down
We're tired of techno, punk or rock'n'roll
So we calm down
Oh, yeah we calm down

Just imagine all the Djs of the world are gone
And all the radios and TV shows just play
Intellygent songs

But all the world is just too wild and spoiled
And so we calm down
This time we calm down

We've been through all the drugs and alcohol
But we calm down
Oh, yeah we calm down
To try to fill up the holes in our souls
We calm down
Oh, yeah we calm down

Just imagine all the commercials of the world are gone
And all the radios and TV shows just keep on playing
Intellygent songs

But all the world is just too fast for us
And so we calm down
Oh, yeah calm down
