

Music Is Gone

Southpaw

Music is gone
Far away
It's above all those fields
On the huge aeroplane
The real music is not
What you hear these days
It ran away from the human race
Music is gone
From your stereo
Now it won't make you fast
It won't make you slow
The real music is not
What you hear these days
It ran away from the human race

Are you looking for the answers in your brand new sequencers?
Are you looking for solution in this bloody empty DJ revolution
?

Now the music is gone
But it's still right here
Just don't pretend that you're strong
If you are weak like me
The real music is not what the machines do
It's inside me it's inside you
Music is here
It's always been
Just put your hands on your ears
If you're afraid to hear it
Music is here
It's always near
Don't let it totally disappear!
