

# The Tree

Southpaw

I'm like a leaf on a tree  
Can't u see me falling down  
And my speed changing with  
The way the wind is blowing  
I watch u leave  
Walk away  
And I know you will never feel  
The same way

I decompose in the soil  
I'm a brand new flower  
I watch them all hand in hand  
All the dogs are lovers  
I had the chance  
And threw away everything  
Because I know  
That is the beginning

Want u back I need you  
I'm feeling so alone  
Want u back I promise  
I will never let you go  
Remember how we started  
So many years ago  
Want u back I promise  
I'll never let you go
