

On The Beach

Southside Johnny & The Asbury Jukes

I know a place where we gotta go
Baby, come on, come on, hurry up let's go

No more grind in the daily gruel
Draining the life out of me
No more work and no more rules
Only one place to be

On the beach, on the beach, on the beach
I can't stand this place cause it's such a bore
I just got to escape get to the shore

Got the King on the radio
Gotta feel the sun on my back
Weekend's here and I'm ready to go
Never never gonna look back

On the beach, on the beach, on the beach
Got the King on the radio
Gotta feel the sun on my back
I know if I don't break out soon
Gonna have a heart attack

On the beach
On the beach
On the beach
On the beach
On the beach
On the beach
On the beach
On the beach
On the beach
