

## Slow Burn

Southside Johnny & The Asbury Jukes

She looks at me  
Sparks fly through my chest  
She needs it now  
No need to suggest  
I get out the candle  
She smolders and yearns  
She lights the wick  
And I slow burn

Slow burn...the flames are licking  
They're starting to spread  
Slow burn...she's started a fire in my bed

We dare not fight it  
Until it's consumed  
Her kiss ignited it  
It's raging through the room  
We start out standing  
Burning up for more  
And end up laying  
Melted on the floor

Slow burn...the flames are licking  
They're starting to spread  
Slow burn...the girl is ablaze in my bed

Your kiss ignites it  
Sends it raging through the house  
Baby, baby, don't fight it  
Till the last flicker of desire is put out

Slow burn...the flames are licking  
They're starting to spread  
Slow burn...the girl is sizzling up the bed  
Slow burn...we start out standing  
Burning up for more  
Slow burn...and end up laying  
Melted on the floor  
Well it's a slow burn (slow burn)
