

## It's So True

Spain

They say life is never fair  
That love's so far away  
But I know babe, it's so true  
It's so true  
I know that you feel so alone  
And you cry yourself to sleep  
But I know babe, it's so true  
It's so true, true, true  
They say fate plays cruel jokes  
And keeps love from you  
But I know babe, it's so true  
It's so true  
I know that you feel so alone  
And you cry yourself to sleep  
But I know babe, it's so true  
It's so true, true, true
