

Make Your Body Move

Spain

Two o'clock
You're all alone
Starting from across the room

Come right here
Girl you know
Just what our love can do

We don't have
To take it slow
Talking all the whole night through

I just want
To take you home
And make your body move

Make your body move

Girl you'll feel
Your loneliness
Drifting away from you

And you'll see
This love exists
We found a love so true

Now we have
Happiness
It's what our love will prove

I just want
To kiss your lips
And make your body move
