Angst in My Pants

Sparks

```
I hope it doesn't show
It'll go 'way
It's just a passing phase
It'll go 'way

You can dress nautical
Learn to tie knots
Take lots of Dramamine
Out on your yacht
But when you're all alone
And nothing bites
You'll wish you stayed at home
With someone nice
But when you think you made it disappear
It comes again, "Hello, I'm here" and
I've got angst in my pants

You can be smart as hell
Know how to add
Know how to figure things
On yellow pads
Answer so no one knows
What you just said
But when you're all alone
You and your head
What's the computer say, it's mumbling now
It says "hey Joe"
It's spelled it out and
"You've got angst in your pants"
"You've got angst in your pants"

But when you think you've made it disappear
You're sure you made it disappear
And you've still got angst in your pants

I hope it doesn't show
It'll go 'way
It's just a passing phase
It'll go 'way
I hope it doesn't show
It'll go 'way
Give it a hundred years
It won't go 'way
And I've got angst in my pants
I've got angst in my pants
```
