

Music That You Can Dance To

Sparks

Music that you can dance to
That and that alone is enough for me
Stark naked modern music
Hotter than your momma will ever be

Music that you can dance to
Cracks you like a whip but it feels so right
Outside the world is colder
Every single night it's another fight

So what's it gonna be
A symphony tonight
Perhaps a little jazz
All I wanna hear everyday, every night is

Music that you can dance to
Every single beat where it ought to be
Lip smacking good, good music
That and that alone is enough for me

So what's it gonna be
A symphony tonight
Perhaps a little jazz
I gotta, gotta move, to the beat to the beat tonight

Get up dear
Get up and try
Get up dear
Get up and fly
Get up hon
You're the one
Get up hon
Son of a gun
Shake it dear
Don't be shy
Shake it dear
Right in my eye
Shut up dear
Don't be weird
Get up dear
The boys are here

Music that you can dance to
Get yourself in tune with the real McCoy
No heavy message baby
Just the perfect blending of sex and noise

Get up dear
Get up and try
Get up dear
Get up and fly
Get up hon
You're the one
Get up hon
Son of a gun
Shake it dear
Don't be shy

Shake it dear
Right in my eye
Shut up dear
Don't be weird
Get out of here
The police are here

Music that you can dance to
That and that alone is enough for me
Stark naked modern music
Hotter than your momma will ever be
