

## Strange Animal

Sparks

When the strange animal  
with the strange set of plants  
came to town last July  
there was blood on his hands,  
and it now comes to light  
he had been in a fight  
with some government men  
who were high as a kite

what a strange animal we a-a-a-are (2x)

There are songs that are sealed,  
that will not let you in,  
but he came on a song  
that was open to him  
to get out of the rain,  
it was cold, it was strong  
Well the strange animal  
walked right into the song

What a strange animal we a-a-a-are (2x)

What a strange (4x)

What a strange animal we a-a-a-are (5x)

"I had nowhere to go  
so I entered your song  
so I entered your song  
hope you don't think me wrong  
well it's warm and its dry  
it's a nasty old night  
it's a nasty old night  
and I must look a sight"

There's something 'bout him that is frightening,  
and right on cue, a bolt of lightning

"I'll just sit over here  
till the cold disappears  
would you think it a sin  
if I start chiming in?"

what a strange animal we a-a-a-are (4x)

we are

what a strange animal we are

"If I may be quite frank  
and I'm not pulling rank  
and I know I'm a guest  
and I know you know best  
but this song lacks a heart  
comes off overly smart  
an emotional core  
ain't that what songs are for?"

There's something 'bout him I'm not liking  
somebody to tell to get hiking

"But you need to be clear  
and a lot more sincere.  
Wake me up, will you friend,  
when the verse finally ends?"

what a strange animal we a-a-a-are (4x)  
we are (3x)

But the ones in the song  
who had been there so long  
who, impatient, has seethed  
and they asked him to leave,  
but he said "Not so fast!  
Unaware of my past  
you allowed me inside;  
You can't push me aside.  
When the song lets me in  
O can see where its been -  
if it's broken some hearts,  
if it's been in the charts.  
But this song shows no signs  
of a grander design  
it attained it or not  
what you know from the start"

"you're in need of a fix  
of a totally remix  
So I must kill you all,  
start again, had a ball  
I'm a strange animal  
and I find you quite dull  
here's that chorus again  
that can stay  
here's the end"
