

Crossing the rivers of a shadow land by night  
Led by my eternal black desire  
Around my sorrow, torches of wizards twist and fight  
The night is falling and evil spirits rise up

Search - for pain , love - for pain  
For the mistress and her mages

Why can I feel - Fears in your eyes  
Take my hand I will see - your beauty in skies  
Eternally - I will protect your night  
'Cause without you I'm mad of  
Sceptic tears

Deep within the darkness of celestial legacy  
I'm looking for the unknown Angel kiss  
The Lords of madness have spelled my atrocity  
The curse of sceptic reasons can be seen on my face

Why can I feel - Fears in your eyes  
Take my hand I will see - your beauty in skies  
Eternally - I will protect your night  
'Cause without you I'm mad of  
Sceptic tears

So many tears - have been lasting so long  
My soul burning in dreams  
My heat is yours for infinity

Why can I feel - Fears in your eyes  
Take my hand I will see - your beauty in skies  
Eternally - I will protect your night  
'Cause I am mad  
Of sceptic tears
