

## Cold Wind

Spirit

Feels like we've all known it  
Been two brothers and never shown it  
The sun was high but a cold wind was blowing

It feels like we've all known it:  
Been two lovers and never shown it  
The sun was high but a cold wind was blowing  
You gotta see

Cold winds turn away  
And let us get together today  
You gotta see

Cold winds turn away  
And let us get together today  
We can turn on one this way, this way

It feels like cold winds are dying  
The sun is high, but the clouds are flying  
The sun is high, but cold winds are dying  
You gotta see
