

Stars Are Love

Spirit

God's all over the place

Bad luck and trouble
Has brought you home again
You've been away my friend
For so long, for so long

Bad luck and trouble
Has brought you here again
You've been away my friend
For so long

Something has gone wrong
Bad luck and trouble

Bad luck and trouble will meet you
When all the stars will greet you
If you set the world on fire
Your heart is made of desire

Bad luck and trouble will find you
I just came here to remind you

That the stars are love
That the stars are love
That the stars are love

Bad luck and trouble
Took you away from here
To see how much you care
For so long, for so long

It's nature's way of telling you
Something is wrong
It's nature's way of telling you
In a song

I could order you to have
A medical examination
