Anabelle and me came to a mutual agreement

We're only Saturday night lovers

Actually, she has a dual personality

Nocturnally

It's like something out of Jekyll and Hyde

But in the shadows of a delicate [?] fire

Frolicking in a [?], like a game reserve

She trumpets delight when I put out the light

Intellect

She got the IQ of a genius

Just between you and me, she's a walking encyclopedia

A scholar with schizophrenia

Conservation

That's her main preoccupation

Procreation of the species, animal species

Gentle as a lamb with a pedigree Alsatian

She's insatiable

She's a delightful veterinarian surgeon

With a deg-ree in bi-o-lo-gy
